Posters are organized according to topics. Poster size is A0 or maximum 90 x 125 cm. Materials to mount posters is available on site.

All posters are debated so please be prepared for a short (max. 2 min.) presentation of the essentials of your poster in front of your poster as we will organize Poster Chairs that will visit all posters. This also applies to participants of the Young Investigators Award.

We are very sorry that we could not in all cases accommodate the wish to present valuable research findings in the oral sessions. This unfortunate circumstances was created by the fact that we only had a limited number of slots for oral presentations and an overwhelming number of submissions.

Yours sincerely,

Dr. Hans Hoppeler
Congress President
